

NEERAJ KUMAR D

Full Stack Developer

Bengaluru, | <tel:+917483452285> | [Gmail](#) | [Github](#) | [LinkedIn](#) | [Portfolio](#)

CAREER SUMMARY:

Entry-Level Full-Stack Developer skilled in HTML, CSS, JavaScript, Python, Django, and MySQL. Experienced in building responsive UIs, integrating REST APIs, and implementing secure authentication. Strong understanding of cloud fundamentals (AWS Certified) and agile development practices. Seeking Front-End, Software Engineer, or Full-Stack Developer roles to contribute technical expertise and deliver scalable, user-focused solutions.

PROJECTS:

- Alzheimer's Multi Class Classification [GitHub Link](#)**
 - Built a deep learning system to detect Alzheimer's stages from MRI scans, achieving 99.30% accuracy using a fine-tuned EfficientNetB0.
 - Deployed as a full-stack web app with Flask backend and custom HTML/JS frontend.
 - Conventional Hall Web App [GitHub Link](#)**
 - Developed a Conventional Hall Management Web Application using HTML, CSS, JavaScript, Flask, and SQLite.
 - Established features like user registration, hall booking, admin dashboard, and real-time availability checks.
 - Cab Management System**
 - Developed a system to store cab company data, including customer and trip details, with features for booking and canceling tickets.
 - Executed automated summary generation for maintaining records and improving administrative decision-making.
 - Traffic Sign Board Recognition and Voice Alert Using CNN**
 - Built a web-based project to predict traffic signs using images and provide voice alerts using Convolutional Neural Networks (CNN).
 - Applied real-time recognition to assist users in driving safely.
-
